MEMORANDUM FOR: Chairman, National Intelligence Council

THROUGH: Herbert E. Meyer
Vice Chairman, National Intelligence Council

FROM: MG Stephen E. Nichols, USA
National Intelligence Officer for
General Purpose Forces

SUBJECT: Draft of IIM: Soviet Antiarmor Programs

1. Subject assessment was prepared by the USA Missile Intelligence Agency (MIA). It supplements our recent Soviet Tank Programs IIM and like it stresses the technical aspects of Soviets antiarmor weaponry. Given the present dialogue on conventional weapons and high technology response, we believe this assessment is both timely and informative. [redacted]

2. This draft is one of the finest initial products received by this office. After our review we could recommend little substantive improvement having followed meticulously the proposed TOR and Concept Paper. [redacted]

3. Recommend SRP review and early convocation of NFIB representatives (late July) to review this excellent study. We plan to produce two versions, [redacted]
